FULL STACK DEVELOPER

RESUME

3+ years as Developer with a solid foundation in JavaScript, I excel in both frontend and backend development, leveraging my versatility to build robust and scalable applications. I am dedicated to continuous learning and skill improvement, aiming to contribute to development teams by implementing efficient and scalable structures that ensure a smooth user experience. My approach is based on SOLID principles, design patterns, and software architectures such as hexagonal architecture to maintain orderly and maintainable codebases.
